"I won't tell anyone, Echo. I promise." Noah tucked a curl behind my ear. It had been so long since someone touched me like he did. Why did it have to be Noah Hutchins? His dark brown eyes shifted to my covered arms. "You didn't do that-did you? It was done to you?" No one ever asked that question. They stared. They whispered. They laughed. But they never asked.

So wrong for each other...and yet so right.

No one knows what happened the night Echo Emerson went from popular girl with jock boyfriend to gossiped-about outsider with "freaky" scars on her arms. Even Echo can't remember the whole truth of that horrible night. All she knows is that she wants everything to go back to normal. But when Noah Hutchins, the smoking-hot, girl-using loner in the black leather jacket, explodes into her life with his tough attitude and surprising understanding, Echo's world shifts in ways she could never have imagined. They should have nothing in common. And with the secrets they both keep, being together is pretty much impossible. Yet the crazy attraction between them refuses to go away. And Echo has to ask herself just how far they can push the limits and what she'll risk for the one guy who might teach her how to love again...
